

ELECTRIC HEATED SAUCE PUMP

TKCU-HCD

STANDARD FEATURES

Heat regulated

- ✓ This warmer is perfect for serving a variety of hot toppings such as nacho cheese, hot fudge, chili, and more, making it ideal for concession stands and buffet lines.
- ✓ The built-in heated spout ensures that toppings are dispensed hot, maintaining optimal serving temperature, while the pump provides consistent portions with each use.
- ✓ Featuring a simple manual temperature control with seven settings and an on/off toggle switch with an indicator light, this warmer is user-friendly and straightforward to operate.
- ✓ Constructed with stainless steel and equipped with rubber feet to prevent movement during use, this warmer is built for durability and stability in busy foodservice environments.
