

# COUNTER DOUGH MIXER

## TKEA-DM7

### STANDARD FEATURES

Counter type

- ✓ Compact and Powerful Performance – Equipped with a 600W motor, this dough mixer efficiently handles up to 1.5 kg of hard flour, ensuring optimal kneading results for small and medium-scale baking operations.
- ✓ Stainless Steel Mixing Bowl and Fork – Designed with a durable stainless steel bowl and fork, this mixer guarantees hygiene, corrosion resistance, and longevity for professional baking environments.
- ✓ Adjustable Speed Control with Timer – Featuring a continuous-variable speed switch and an integrated timer, users can fine-tune the kneading process for different dough consistencies, ensuring precision and consistency.
- ✓ Enhanced Safety System – The mixer includes a protective cover with an automatic shut-off feature, preventing operation when the cover is open, along with an overload-protected motor, ensuring operator safety and long-term reliability.
- ✓ Easy Cleaning and Maintenance – All removable parts are dishwasher-safe, and the mixer's stainless steel surfaces can be easily wiped clean, ensuring hassle-free maintenance in busy kitchen environments.

### PRODUCT SPECIFICATIONS
