

ELECTRIC WAFFLE MACHINE

TKOT-SWM

STANDARD FEATURES

Square waffles

- ✓ The machine features a body made from high-grade stainless steel 304, ensuring excellent durability and resistance to corrosion. This makes it ideal for continuous use in busy commercial environments, maintaining its sleek appearance and functionality over time.
- ✓ Equipped with heavy cast iron cooking plates, this waffle machine guarantees even heat distribution and superior heat retention. This results in perfectly cooked waffles every time, with a consistent texture and golden-brown finish.
- ✓ The adjustable thermostat allows for precise temperature settings from 50 to 300°C. This wide range provides versatility in cooking, enabling you to create waffles with varying degrees of crispiness and softness to suit different preferences.
- ✓ Designed for high performance, this waffle machine combines a robust stainless steel body with efficient cast iron plates, making it a reliable choice for cafes, restaurants, and food stalls. Its durable construction ensures longevity, while its user-friendly controls and ergonomic design enhance operational convenience.
