

UPRIGHT DISPLAY REFRIGERATOR

TKSA-UR508

STANDARD FEATURES

Double glass hinged doors

- ✓ This cooler features two glass doors that enhance visibility and provide excellent insulation, making it perfect for displaying beverages and food items. The clear visibility supports both effective marketing and easy access, crucial for busy commercial environments.
- ✓ The SC-508 utilizes a static cooling system enhanced with fan assistance to ensure even temperature distribution, making it suitable for a wide range of food and beverage types. This reliable cooling method maintains freshness and quality, essential for both storage and display.
- ✓ Equipped with vertical LED lighting, this cooler offers superior interior illumination, significantly enhancing the presentation of its contents. This makes it an ideal choice for commercial settings where product appeal is paramount, boosting visibility and sales.
- ✓ Featuring a robust design with lockable plastic doors, double-layer glass, and an auto-defrost feature, the TKSA-UR508 is built for versatile use in any commercial kitchen or display area. The addition of four caster wheels enhances its mobility, allowing for easy repositioning and flexible use across different sections of a business.
- ✓ Operating with a low power consumption of just 2A, this cooler is not only energy-efficient but also versatile enough to handle various types of items, from beverages to perishable foods. Its efficient operation and broad usability make it an ideal choice for businesses looking to minimize costs while maximizing functionality.
